HIGH PERFORMANCE APPOINTMENTS

MEN'S PROGRAMME

Convenor:	Chris Hayward
Senior Men's Coach:	Jason Hunt Asst: Brett Adams
Junior Men's Coach:	Kurt Goldsworthy Asst: Johnathon Ware
Schoolboy's Coach:	Johnathon Ware
Cadets Coach:	Michael Brooks Asst: Eamon Lui (first part 2007) Eamon Lui Asst: Ben Aye (1st part 2008)

WOMEN'S PROGRAMME

Convenor:	Sharon Geary
Senior Women:	Paul Monney (until June 2007) Asst: Fraser Bickley Davor Carevic
Junior Women:	Fraser Bickley Asst: Paul Monney
School Girls:	Steve Knights Asst: Sarah Chambers-Goffe
Cadets Coach:	Richard Claridge

CHAIRMAN'S REPORT

Rob Borgers —

As Chairman of the NZWP Board for the year 2007/2008 it gives me great pleasure to provide this report from a board perspective.

My emphasis in this report is as an overview of the Board's activity as well as reflecting on our goals and strategic initiatives.

Firstly, I would like to recognise the efforts of my colleagues on the Board. Each has brought a skill and competence, which has ensured our ability to capture a broad range of ideas in determining the way forward. We have worked well together and always ensure we do use each other's best skills for the benefit of the sport.

Anne McKaskill continues to contribute a substantial amount of personal time and energy in developing a unique administrative system for our sport. Our website is well regarded within the sports sector yet we recognise we have only just begun. We have a great tool in our website and are fortunate that Anne and her team continue to expand our resource in this area. We look forward to driving this valuable asset for the sport in all the ways it should.

To our new board member Kevin, and our co-opted members Keith and Louise, your input has been fantastic. You have brought refreshing new skills to the board at a time when we are ready to move again into areas of growth.

Chris, Doug & Matt, thank you for your input this year. Your continued support, guidance and input are valued. You have been part of a great period of achievement; it is fantastic to have you on board for the next phase as well.

PARTICIPATION

We continue to grow which is a great achievement for any sport. We should be proud that each year we take our participation to a new level. We are not advancing as quickly as we had set out in our strategic plan, this is our challenge.

Our participation goals can be achieved and our enhanced Flippa Ball programme is vital to this success. Our senior numbers of 233 hold us in good stead but we hope to keep growing these as we develop more and new facilities.

Our Flippa Ball numbers sit at 12,397 and we look forward to an explosion of numbers in the coming year/year. The development of the talent, which we should uncover, will then be our next challenge in progressing the game to the highest level in New Zealand.

HIGH PERFORMANCE

Once again some of our achievements show we can foot it on the world stage:

Junior Women: 7th FINA Junior World Championships - 8th of 15 teams

Junior Men: 14th FINA Junior World Championships - 17th of 24 teams

U15 Girls: Trans Tasman Shield Series - won both years 2007 and 2008

U15 Boys: Trans Tasman Shield Series - won both years 2007 and 2008

Perhaps our biggest challenge as a sport is just in front of us. To perform on the world stage we now need to look inward at our HP structure and look to take on the expertise we need to ensure we can perform at this level. We are a sport, which has the ability to bat above its weight. However, if we are to achieve our high performance goals we must improve our collective efforts and have a determined focus. The board and management are committed to finding solutions that will drive our HP to a new height on the world stage across all genders and age groups.

FINANCIAL SUSTAINABILITY

This year's result shows we must remain focused on our sustainability. We are well positioned and have a strong platform from which to move forward with confidence. We ended the financial year with a small deficit and need to remain focused on generating income that can be reinvested in the sports ongoing development.

Our not for profit focus does not mean not commercial, every dollar of surplus is reinvested in some way into the sport. We are at a very exciting stage and our revamped Flippa Ball programme will take us into new territory.

To Nick and his team – I would like to thank you for continuing to strive to make our sport, "The Aquatic Sport of Choice". We missed some targets this year, but together we have taken some decisive action to ensure we remain focused on achieving our outcomes.

We believe we are well placed to making our goals a reality over the next 12-18 months.

To our stakeholder's we thank you. In particular our thanks goes to SPARC for the investment of both time and resource into our sport, we really appreciate the developing relationship and look forward to growing with your continued assistance.

Naturally our sponsors are an important component of what we are trying to deliver to the sport. We all genuinely appreciate your ongoing support and financial contribution to our sport. Thank you.

To Stephen and Margaret Tindall. You have taken us off the kitchen table and for that the sport will be forever grateful. Your financial and management guidance over the last five years has been amazing and without precedent in our sport. I hope we continue to deliver results that reflect your vision for Water Polo in New Zealand.

Finally to all the volunteers who spend the hour's necessary to "make things happen" poolside, travel wise, coaching, refereeing, administering and funding, you are the backbone of our wonderful sport. Thank you for your contributions. Each one of you is as important as the next.

Thank you one and all for the fun and focus you contribute to our game.

Robert K Borgers
Chairman – NZWP – 2007

CHIEF EXECUTIVE AND STAFF REPORT

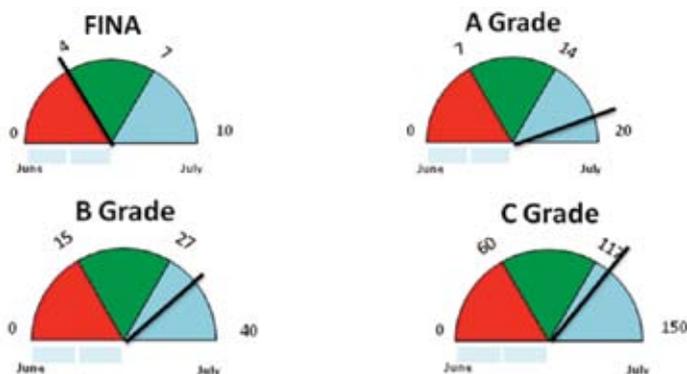

Nick Cowan —

We can be very proud to be the sport that we are as New Zealand Water Polo. Together as a community, the sport of Water Polo has built itself up to be of real impact in the New Zealand sport sector. We are well structured and have great volunteer and staff passion to take us forward to the bold yet realistic goals we have set for ourselves. The challenge lies in front of us but as a sport if we remain resolved and united on positively driving our sport forward we are well positioned to move forward more quickly than ever before.

This year has seen some great progress in areas and also some genuine challenges for us. Certainly when you look at our strategic plan and business plans we have moved quickly as a sport. Some areas require a refresh and rethink to move us forward in the same fashion. In some of our business areas as a sport we require much effort to improve our quality and perform on the world stage. We intend to drive this area more assertively going forward.

Perhaps of most satisfaction for the year is the level of investment made towards NZWP and the confidence our stakeholders have in us as an organisation. A careful review of our balance sheet confirms this confidence and indicates just how well we are placed to move forward.

OPERATION - REFEREE DEVELOPMENT

Overview

Referee Development (together with Coach Development) is essential to support our goals for increased participation and achievement in the high performance end of our sport. (Strategy 2007)

The goals set for 2007-2008 regarding Referee Development are:

- To dramatically increase the base number of referees in the sport whilst retaining the high professional standards we currently enjoy at the top end. This will be done through a high quality Referee Development Programme featuring quality resources, sustainable recruitment and retention strategies.

SUMMARY OF STRATEGIC PLAN TARGET:

	FINA	A Grade	B Grade	C Grade	Flippa Ball
2007/8	7	14	27	117	102

Note: there currently is no established/recognised Flippa Ball Referee Programme, which means the 102 is not a 'registered' number as such and the number 0 is entered. It has to be pointed out that there is no shortage of Flippa Ball referees).

As can be seen all target numbers have been met, except the number of FINA Referees.

EXPLANATION:

*FINA Referees will be known in January of each year as the FINA list is per calendar year, not per financial year. Our target should be to have out 7 spots on the FINA list filled at all times.

Currently NZWP has got 4 FINA accredited referees (this means on the 2008 FINA list): Liz Burman, Steve Knights, Doug Campbell and John Waldow.

Cory Williams did not attend an official FINA Referee School in 2007 and could therefore not be nominated for the 2008 list. Cory has attended a FINA Referee School in Sydney last April (together with Matt Selkirk) and will be eligible for nomination for the 2009 list.

Boris Kipnis has reached the age of 55, which means he can no longer be nominated. Boris is now A Grade.

For the 2009 list NZWP currently will have the possibility of nominating the following referees:

Burman, Knights, Waldow, Williams, Selkirk and Brooks. Doug Campbell needs to attend a FINA Referee School in 2008 to be eligible for the 2009 list.

Key Issues

- Low number of (high) quality opportunities (games) to develop the standard of our referees.
- Most of our referees are involved in other areas of our sport such as coaching, playing, administration etc. Often we see that they do all of the above! This means that people have different hats and responsibilities within our sport and do not see themselves as referees only. This means they do not (cannot) put all their effort in one activity, which compromises quality and 'feeds' issues such as objectivity. Example: Steve Knights coaches North Harbour senior women, is a FINA referee, recently elected as North Harbour Chairman and also coaches the NZ Schoolgirls...
- Because almost all referees are involved in other areas of our sport, we struggle with appointments for games.
- Local/regional development is difficult because of this lack of experienced/knowledgeable referees and the involvement of these experienced referees in other areas of our sport.

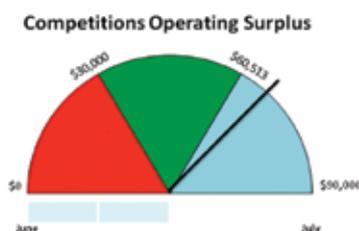

Key Achievements and Opportunities

- A new education pathway has been drafted which will now include an Introduction Course Water Polo Referee, a Water Polo Official Course (time keeping, secretary and goal judging), a Flippa Ball Referee Certificate and Referee Clinics/Technical Meetings.
- The course materials have been reviewed and new courses have been drafted.
- DVD resource development started.
- Pocket rulebook printing process started.
- Two referees attended FINA Referee School in Sydney (Cory Williams and Matt Selkirk).
- Steve Knights selected as neutral referee for Beijing Olympics
- NZWP now has a professional referee walkway, which was used for first time at Pan Pacs and a great success for both referees and commercial activities.

Moving Forward

- Finalising drafts of course material.
- Production of DVD resource.
- Implementation of new formal Referee Education Programme.
- Establishing Mentor and Appraisal Programme.

COMPETITIONS

Overview

Our domestic competitions promote participation and high performance. NZWP has a deliberate strategy of generating a modest surplus from these competitions as a funding source for other areas of spending.

Simultaneously we will increase the quality of our current national championship events and look to introduce new competition opportunities as they are identified.

Hosting a major international competition at every two years is seen as a core opportunity to display world class water polo to the NZ public and give our high performance players the opportunity of representing their country at home.

(Strategy 2007)

SUMMARY OF STRATEGIC PLAN TARGET:

Competition	S	J	U18	U16	U14	SB	SG	MNL	WNL	PP	SX	Surplus
2007/8	2	1	1	2	1	2	2	1	1	1	1	\$55,000
Realised	2	1	1	2	2	2	2	1	1	1	0	\$63,130

In 2008 the U20 (Junior) competition was intergrated within the Pan Pac tournament and there was no Southern Cross Cup (SX).

A division 2 U14 championship was organised in Hamilton and a great success.

Key Issues

- Huge overlap of age groups, particularly in the women's programme, we have U14 players representing U14, U16, U18 and U20 (there was even an U14 player registered in a National League team!...).
- Referees that are coaching, and sometimes playing as well, (see Referee Development Report), with all consequences mentioned.
- Quality of referees.
- Facilities that are not confirm FINA rules.
- Large difference between standard/level/quality of participating teams and coaches.

- If we talk about high performance (international benchmark), the standard/level of our competitions is very (too) low.
- Not enough competition (games) through the year for specific age groups. Players are not playing water polo all year round and the ones that do are representing several age groups (which is not ideal).
- Clubs lack professionalism (especially at high level/image competitions such as National League and Pan Pacs). Presentation and thus promotion of our sport is far from what is needed to raise our profile.

Key Achievements and Opportunities

- NZWP presence at competitions with a direct impact on organisation and referee/coaching development: ‘raising the bar’.
- National League Handbook completed.
- Event Manual drafted.
- National League Logo designed.
- National League Posters designed and distributed.
- Newspaper advertisement National League in Sunday press.
- Professional NZWP signage at competitions.
- Referee walkway which benefits referees (and thus quality of competitions in many ways), commercial opportunities and general image of our sport.
- Established team and dress protocols for National Championships.
- Won the bid to host the 2010 World Womens Cup.

Moving Forward

- Obtained good insight in competitions calendar, and thus able to:
- Review national calendar and competition formats with possible extensions/additions.
- Establish calendar with clear pathways to international competitions/level.
- Establish National Competitions Handbook with specific appendices for all competitions.
- Develop strategies for quality control and increasing media presence, attendance, presentation and income (commercial).

CLUB DEVELOPMENT

Overview

Improving the quality of our existing clubs and working to support the introduction of more water polo clubs in New Zealand is a key focus. The opportunity exists to create an on-line tool, the ‘club-in-a-box’, which will provide solutions and strategies for successfully operating or creating a water polo club. While providing the very best support we can for our existing clubs, our objective is to kick-start and support one new club in each financial year. (Strategy 2007)

SUMMARY OF STRATEGIC TARGETS:

2007/8	Develop ‘club-in-a-box’ resource kit.	
	Undertake a club ‘structural’ audit including committee detail, financial position, pool space use, development status, etc.	
	New Club	Target Regions
2007/8	1	Taupo / South Auckland

As NZWP has developed an excellent relation- and partnership with SPARC, we have used their experience and resources to kick-off our Club Development activities. NZWP now has a Club Development section on the website where we give information and the SPARC links for starting and running a club.

We will develop more water polo specific Club Development resources in the future which will be added to the website and which will have to be based on NZWP Strategy and Business Plan. Ideally Clubs are working on the same ‘business units’ as NZWP, only on a smaller scale.

The workshop that was run in Wellington last year should be used as a template and further developed which can then be used ‘in the field’.

The ‘structural’ club audit has been done and needs to be investigated further to ensure we give assistance where needed. We are still chasing a few clubs who haven’t returned the survey.

There has been no new club formed in the last year. Palmerston North however is looking very promising and a lot of progression has been made in the past few months and the expectation is that a new club in this region will be formed within a few months.

Key Issues

- The biggest issue I have in this area is that it is difficult to get responses on things like the survey, as the people who are responsible and willing to invest their time and effort are involved and caught up in a lot of other activities within their club.
- Club Development is a very time consuming activity and within the office I have struggled to commit time and effort to it. With Dana on board I am convinced we will make a lot of progression in this particular area. The ideas are there, we just need to execute them!

Key Achievements and Opportunities

- SPARC relation- and partnership.
- Website content: Club Development section.
- Event Manual drafted.
- Palmerston North club to be formed.
- National League Handbook will assist the clubs in their development.
- Club Survey.

Moving Forward

- Collate and investigate Club Survey data.
- Expand website content with WP specific information.
- Design Club Development Workshop based on Wellington model and NZWP. Strategy and Business Plan.
- Design Club Recognition/Award Program.

FACILITIES DEVELOPMENT

Overview

We believe that the shortage of appropriate deepwater facilities is the single biggest impediment to achieving the three strategic goals. Accordingly, we've made facilities development and gaining access to appropriate facilities a high priority.

The Pool in a Box document has been created and has to be marketed proactively.

NZWP advocates the need for new pools, regardless whether the PiaB concept is appropriate or used.

We also want to work directly with clubs in identifying opportunities for greater access to existing suitable pool space. (Strategy 2007)

SUMMARY OF STRATEGIC PLAN TARGETS:

- Complete an audit of club pool use and costs
- Two new deep water facilities

The audit of club pool use and costs was included as part of the Club Survey.

The target of two new deep water facilities has been partially achieved. A new deep water pool will open in Christchurch to my knowledge. We can only try and influence facility development, unless we build our own facilities. Things look (very) positive though, with projects (and NZWP involvement) in: Cambridge, Bucklands Beach, SilverStream, Albany, Timaru, Kapiti Coast, Papakura, Tauranga and North Shore at MISH.

Key Issues

- NZWP can only try and influence, we are not actually building facilities ourselves (yet!) and are thus reliant on other institutions to reach our target of two new deep water facilities a year and have access to these facilities.
- Pool in a Box concept possibly out of date.

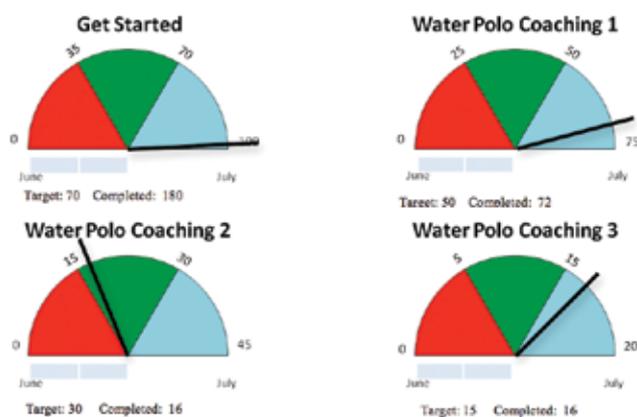

Key Achievements and Opportunities

- Participation in pilot Facility Audit by SPARC in Wellington region. Possibly this audit will be reproduced nationwide.
- Involvement in above mentioned projects.

Moving Forward

- Refresh the Pool in a Box concept.
- General case studies of pool usage and income (water polo specific) based on Tauranga document, but more extensive and including an hourly break down of (possible) water polo activities.

COACH DEVELOPMENT

Overview

The main focus this year has been to update the coach development structure to align it with SPARC's Coach Development Framework. The biggest change required was to change the content of the courses to be athlete-centred rather than pitched at the level of the coach as per the previous structure. Essentially this means that each of the courses reflects the development stage of the athlete being coached both in sport specific information ('what' to coach) and generic developmental information ('how' to coach).

The new coach development structure (as directed by the Coaching Advisory in consultation with SPARC's coaching manager) required the development of an induction module ("Get Started") for all communities and changes to the content of previous levels to reflect the needs of the existing coaching communities. As a result, Level One and Two has been replaced by Water Polo Coaching One (for coaches of Early Teenage athletes), Water Polo Coaching Two (for coaches of Late Teenage athletes) with Water Polo Coaching Three still aimed at our high performance and senior team coaches.

Key Coach Development Achievements

The most important achievement in coach development this year has been the alignment of the formal development programme with SPARC's framework, reflecting the philosophy and principles of their NZ Coaching Strategy. This has tied water polo in with a number of other leading sports working together to offer coach development of generic principles both within their development programmes and through use of the Regional Sports Trusts. It will allow cross-referencing of development aspects across a range of sports (and from tertiary institutions) and will offer coaches further development opportunities from external sources that will be relevant to the objectives and principles of our own programme by meeting common learning objectives.

The biggest success for coach development this year has undoubtedly been the popularity of the 'Get Started' coaching induction course, attended by more than 180 coaches throughout the country.

Sport BOP appointed our sports' first CoachForce Officer (Water Polo), Sarah Jenner, based at Sport BOP in Tauranga and managed by NZWPA. The coaching support that this has allowed the BOP area has already seen huge benefits and allowed fast growth in both coaching and generally in water polo throughout the area. Discussions in regards to eligibility have been held with other areas and we would hope to have at least one further CoachForce Officer within the next year.

We also enjoyed the visit of world class international coach Erkin Shagaev. Erkin conducted an intensive three-day coaching course to our high performance coaches and offered a great deal of knowledge and insight to those who attended.

Significant Coach Development Issues

The biggest issue facing coach development is still the low numbers of those who consider themselves water polo coaches. Most of our coaches are primarily players who coach to help out their club or school, or teachers who are appointed 'teacher-in-charge' of water polo but have no interest in developing as coaches. This can make it difficult to attract coaches to formal education courses as they are not motivated to develop their skills any further, not seeing a future in coaching. Furthermore, the high turn-over rate of these coaches significantly impacts player development as so few players are exposed to experienced coaches at an early age.

At the other end of the scale there is a perceived lack of opportunity for coaches wanting to develop to high performance water polo. The sport is very school-based, with most clubs only offering under 20 and senior water polo with one team in each gender, limiting coaching opportunities for coaches who see themselves advancing beyond age group water polo. Club teams are unable to accommodate all potential players due to lack of water space meaning fewer teams and fewer high-end coaching positions.

Regional development has been difficult to implement due to a lack of experienced/knowledgeable coaches that could assist with leading development in some areas. I hope that specific coaching plans for these areas will assist with strategic direction for future development.

There may also be some issues in regards to accreditation/RPL for our formal coach education. A lot of our coaches have been through the Level One course and received accreditation. However they should be encouraged to attend Water Polo Coaching One as the format has been restructured and the content changed, with the new athlete-centred emphasis which will benefit the development of our athletes. They would also need to have met the new learning objectives to have their qualification accepted by other sports/institutions.

It was also disappointing to lose the support of the Prime Minister's Scholarship (for both players and coaches) this year after SPARC changed the eligibility criteria, effectively only offering the scholarships to high performance sports.

Key Strategic Plans for the Future

Having implemented the formal coach education programme, this year more focus will be on developing informal coach development programmes such as mentoring, peer appraisal, professional development, generic coaching methodology, etc.

We are also running development initiatives which include intensive coach, referee and player development 'camps.' I envisage this initiative being a highly effective vehicle for water polo development in communities outside of our main centres, particularly for coach development. As with most water polo initiatives we are facing the barrier of access to significant amounts of pool space to run the development.

There will be a larger focus on regional coach development. The formal coach education programme is a good entry into regional coach education delivery but the development of regional coach plans will help to focus development specifically where there is the most need in various areas. Alongside this we will be working to increase the number of facilitators able to deliver coach development so that we can begin to move toward a more regional approach to delivery.

The work with Coaching Directors of other sports and Regional Sports Trusts will continue, contributing to a national coach development programme which benefits all sports. Presently I am leading the 'Service Directory' project to facilitate resource sharing, identify support opportunities for coaches, standardise language across all coaching communities and encourage alignment of learning outcomes throughout the sports industry.

There will be a push to have more water polo CoachForce Officers appointed in regions where they can have a great impact. I believe the success in BOP will improve our chances of success in other areas and I have already approached some regional sports trusts and received some interest. This is an ideal opportunity to not only encourage regional coach development and delivery but also be a visible resource that can increase coach recognition, status and quality.

Summary

New Zealand Water Polo now has a formal coach education programme that is aligned to SPARC's Coach Development Framework and supports the philosophy and principles of the New Zealand Coaching Strategy. Over the next 12 months we will give as many coaches access to this programme as possible. We can now develop an informal coach development programme to run alongside the formal programme which can meet the specific needs of the coaches of the sport.

The NZ Water Polo Coach Development programme is committed to supporting the three objectives of the New Zealand Coaching Strategy to lay the foundations to create a world-class coaching environment – specifically to increase the recognition and status of coaches and to improve the quality of the coach education process, ensuring that coaches have ongoing pathways for further development.

COMMERCIAL

SUSTAINABLE FUNDING

SUSTAINABLE FUNDING FOR 2007/08

Key Issues and Challenges

- Develop new business revenue streams
- Increase commercial business growth and achievement.
- Realise funding targets
- Commercial revenue target not achieved

Key Achievements

- Relationships with new and existing funding agencies managed
 - Gaming and Community Funding.. \$539,871
 - SPARC \$357,500
 - Tindall Foundation \$188,750

TOTAL \$1,086,121
- SPARC relationship continues successfully
 - \$357,500 for financial year
 - including \$100,000 new investment into Flippa Ball
- New Partnerships formed with United Containers Limited, Gilpin Travel, Digital Mobile, NZ Mini Bus Rentals and Vodafone

Moving Forward

- Rebrand and refresh commercial strategy
- Strategy for securing national Flippa Ball sponsor
- Develop key revenue source outside Flippa Ball
- High performance fundraising strategy
- Procurement review for 2008-07-25 Refresh merchandise strategy
- Continuing to manage funding partner relationships
- Golf tournament organisation continues
- Continue to develop gaming charity relationships

COMMERCIAL

Department	Surplus	Budget	Variance
Academy	\$32,307	\$31,000	+\$1,307
Retail Online sales	\$4,487	\$17,250	-\$12,763
Facility	-\$344	\$1000	-\$1,344
Commercial Total	\$36,445	\$49,250	- \$12,805

Key Issues and Challenges

- Commercial revenue target not achieved
- Maximise online retail sales
- Emphasis placed on funding and Flippa Ball revenue centres.
 - Online merchandise sales not fully realised against budget
 - * Apparel sold at loss to move stock
 - * \$14,000 stock carried forward from 2006 Pan Pacs

Key Achievements

- Presentation to SPARC on commercial model for Flippa Ball
- New partnerships formed with :
 - : Gilpin Travel including \$20,000 support
 - : Digital Mobile – 8 free cell phones
 - : Vodafone – cell phone plans secured
 - : Giltrap Holden – 6 vehicles leased, 1 loan car free, 4 more vehicles to be leased
 - : United Containers – storage and transport for referee walkway for two years
 - : NZ Mini Bus rental – discounted rentals and 10% return on member generated business

Moving Forward

- Web based commercial plan
- Secure further sponsors for referees walkway and signage
- Rebrand and refresh commercial strategy
- Strategy for securing national Flippa Ball sponsor
- Develop key revenue source outside Flippa Ball
- High performance fundraising strategy
- Procurement review for 2008-07-25 Refresh merchandise strategy
- Continuing to manage funding partner relationships
- Golf tournament organisation continues
- Continue to develop gaming charity relationships

FLIPPA BALL

Participation	12,397	Surplus	\$98,528
Budget	11,060	Budget	\$103,000
Variance	+1337	Variance	-\$4,472

Key Issues and Challenges

- Slow start to Flippa Ball programme with change in staff

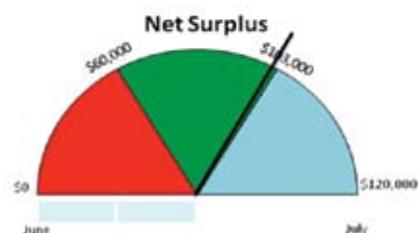

Key Achievements

- Foundation in place for full commercial rollout
- Presentation to SPARC on investment into FB
- Auckland Area Manager employed
- Flippa Ball restarted in Hamilton. To operate four terms
- Discussions with possible new LC for Palmerston North
- Participation tournament operated in Northland
- New Leagues organisation and discussions commenced with:

Kawakawa	Whangarei	Masterton
Palmerston North	Manukau City	Pukekohe
Papakura	Te Awamutu	Whakatane
Glendowie	Wanganui	Taranaki
- Initial discussion with Nelson to bring into NZWP model
- Presenting to Jaws conference in Hamilton
- Solid foundation set for future

Moving Forward

- New Zealand Water competence strategy
- Operation of full commercial programme
- Proposal for sponsorship

MARKETING AND COMMUNICATION

STRATEGIC GOAL:

To provide quality information, resources, and services through a high profile, well managed and effective delivery structure.

Key Issues and Challenges

- Develop right brand image for NZ Water Polo
- Effective communications with all stakeholders
- Create a premium position and value for Flippa Ball – refresh the brand
- Integrate new Flippa Ball brand into business

Key Achievements

- Brand Strategy developed for Flippa Ball
- Flippa Ball wish list completed
- Stakeholders survey completed and analysed
- Generic presentation for Flippa Ball developed
- National water competence strategy and strategy for impact of deep water activity

Moving Forward

- Flippa Ball Brand strategy
- Upgrade and develop web based programmes for individual members and clubs
- Increase individual members database on website
- Continue to develop a presentation for Jaws conference
- Sponsorship strategies to be developed for specific sponsors
- Create a marketing and communication plan for the 2010 World Cup

We have some exiting initiatives moving forward, none more so than our expansion and commercial roll out of our New Zealand Flippa Ball programme. We have high stakeholder confidence and investment into this programme. We are presented with an enormous opportunity in front of us to successfully implement our commercial model. Success in this will truly allow us have self generated income contributing significantly to the operation of the sport. We will become less reliant in our investors and will move quicker in those areas that can take time.

Our operation has the best team to take us forward. With Eelco Uri leading our operation of the sport and the team of staff and volunteer support we are well placed moving into our next growth phase.

Our focus both commercially in Flippa Ball and also operationally in the sport will be to deliver best practice in all that we do. This will be our major focus in the next 12 months. Setting ourselves up to be self reliant with a significant influx of participants into our sport whilst keeping a close eye on performing on the world stage. We have much to do and still can improve. Equally we are in the best possible position ever to achieve the vision "to be the aquatic sport of choice". Our stakeholders have shown their confidence in us; it's our job as a sport together to now have the self belief to move into perhaps our most challenging yet satisfying stage of achievement.

I would like to thank my staff team for your work. It has been a challenging year at times. You have all remained focused on the business at hand and I am very proud to be part of such passion and commitment to delivering the best possible service we can. Thanks Pam, Steve, Eelco, Paul, Desiree, Dana and Sarah.

To my board I thank you for your guidance, mentoring and accountability. It is a pleasure working with you and I am often told how lucky the sport is to have the board it has. Your governance is appreciated and valued. Also to our Chairman Rob Borgers, thank you for your support. Your ability to leave the operation to it yet hold strong accountability works very well. Under your leadership the sport has advanced very quickly. I look forward to working with you on our next challenging phase.

To our sponsors and supporters, your continued support and faith in our organisation is appreciated. Our stakeholders are our most valued asset and we are always grateful for the support.

Special thanks to all our Gaming partners who have all assisted in achieving the great things we have done. Thanks to Southern Trust for your continued support in the sport. To Karen from Southern Trust you have embraced our vision of creating a self reliant sports delivery model. Thanks to you and your trustees and we hope to deliver upon your expectations and create the vision in line with yours. Thanks also to Tony and the team at NZCT for assisting us in the much needed area of development. You are truly making a difference in how we operate.

Thanks to SPARC for your great support and guidance. Your new relationship model works. We are pleased to have the best relationship we have ever had with SPARC and credit must go toward your relationship managers. Particular thanks from NZWP to Paul Heron who has become a true advocate for Water Polo for us into SPARC.

To our volunteers thanks once again, everywhere in the sport we take a step back and wonder where we would be without our volunteers. The team at NZWP office is very appreciative of the volunteers we have and are amazed just how much passion there is out there for Water Polo. Thanks to Sharon our women's programme convenor who continues to go the extra mile for the players of our sport. To Chris Hayward (CH) yet again thank you. Your commitment to the sport is unprecedented and every walk of life in NZWP we realise that we would not be where we were as a sport were it not for your continued volunteer work. CH your support of the sport and guidance for the office is very highly valued. Thank you.

To Stephen and Margret Tindall and the Tindall foundation a very special thanks. Your investment toward New Zealand Water Polo has allowed us to achieve much more than we could ever had. It also has allowed us to get set and ready to go again to achieve our vision. We are very fortunate to have had your long term support and look forward to continuing what your support has made possible.

Nick Cowan

NEW ZEALAND WATER POLO ASSOCIATION INC.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30TH JUNE 2008

1) STATEMENT OF ACCOUNTING POLICIES

These financial statements are prepared in accordance with the reporting requirements of the Institute of Chartered Accountants of New Zealand Financial Reporting Standards and the Statements of Standard Accounting Practice.

A) REPORTING ENTITY

The New Zealand Water Polo Association Incorporated is an incorporated society registered under the Incorporated Societies Act 1908.

B) MEASUREMENT BASE

The accounting principles recognised as appropriate for the measurement and reporting earnings and financial position on a historical cost basis are followed by the Association.

C) DIFFERENTIAL REPORTING

The Association qualifies to take advantage of differential reporting exemptions under the following criteria as defined in the Institute of Chartered Accountants of New Zealand Framework for Differential Reporting:

It is not publicly accountable.
It does not qualify as large.

The Association has taken full advantage of all differential-reporting exemptions.

D) SPECIFIC ACCOUNTING POLICIES

The following specific accounting policies, which materially affect the measurement of financial results and financial position, have been adopted in the preparation of the financial statements.

Accounts Receivable / Sundry Receivable

Debtors are stated at estimated realisable value after providing against debts where collection is doubtful.

Valuation of Inventories

Inventories are stated at the lower of cost and net realisable value after making due allowance for damaged and obsolete stock.

Goods & Services Tax

These financial statements have been prepared on a GST exclusive basis where all items in the Revenue Accounts have been recorded exclusive of GST as have Stock on Hand and Fixed Assets (used principally for business purposes) in the Statement of Financial Position inclusive of GST.

Fixed Assets

Non-current assets are included at cost less Accumulated Depreciation. Depreciation is calculated using the following rates:

Furniture	15% -50%	D.V.
Vehicle	40%	D.V

E) CHANGES IN ACCOUNTING POLICIES

There have been no changes in Accounting Policies. All policies have been applied on bases consistent with those used in previous years.

2) TAXATION

The Association is not required to pay tax pursuant to section CB 4 (1) (h) of the Income Tax Act 1994.

NEW ZEALAND WATER POLO ASSOCIATION INC.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30TH JUNE 2008

3) OPERATING SURPLUS

After deducting the following:

	2008	2007

	<u>47,935</u>	<u>12,701</u>	<u>26,496</u>	<u>-</u>	<u>21,439</u>

9) ACCUMULATED FUNDS

Consist solely of retained earnings.

10) CAPITAL COMMITMENTS

There was no Capital Expenditure contracted as at 30 June 2008.

NEW ZEALAND WATER POLO ASSOCIATION INC.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30TH JUNE 2008

11) CONTINGENT LIABILITIES

No contingent liabilities / assets are known to exist at balance date. (2007: \$nil)

12) OPERATING LEASES

Non-cancellable operating lease commitments:

	2008
Current	54,477
Non Current	54,587
Total Operating Lease Commitments	<u>109,064</u>

13) CHANGE OF FINANCIAL YEAR END

The financial year end was changed from 30 April to 30 June. This resulted in the current reporting period being for 14 months, while the comparative figures are for a period of 12 months.

Audit Report

To the Members of the New Zealand Water Polo Association Inc.

We have audited the financial report of the association. The financial report provides information about the past financial performance of the association and its financial position as at 30 June 2008. This information is stated in accordance with the accounting policies set out in the financial statements.

Executives Responsibilities

The Executive is responsible for the preparation of a financial report which fairly reflects the financial position of the association as at 30 June 2008 and the results of operations for the period ended on that date.

Auditor's Responsibilities

It is our responsibility to express an independent opinion on the financial report presented by the Executive and report our opinion to you.

Basis of Opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial report. It also includes assessing:

- the significant estimates and judgements made by the Executive in the preparation of the financial report, and
- whether the accounting policies are appropriate to the association's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with New Zealand Auditing Standards except that our work was limited as explained below. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to obtain reasonable assurance that the financial report is free from material misstatements, whether caused by fraud or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial report.

Other than in our capacity as auditor we have no relationship with or interests in the association

Qualified Opinion

Control over the revenues from cash donations and fundraising prior to being recorded is limited, and there are no practical audit procedures to determine the effect of this limited control.

In this respect alone we have not obtained all the information and explanations that we have required.

In our opinion, except for adjustments that might have been found to be necessary had we been able to obtain sufficient evidence concerning door to door collections, the financial report fairly reflects the results of operations for the period ended on that date.

In our opinion the financial report fairly reflects the financial position of the association as at 30 June 2008.

Our audit report was completed on 12 August 2008 and our qualified opinion is expressed as at that date.
